This happened last Wednesday. It's funny, but if you recall, we were told to have the fire department investigate the fortification leading to this grow. I spoke to a Glendale fire friend of mine – for his opinion - and he said there was “No way” any fire department would have handled this thing if they knew it lead to a marijuana grow. Because of all the complaints from the neighboring tenants and the BID, a (hope this is the right code) 319 investigation was initiated with Narco and they obtained a search warrant.

We knew it was going to be big and it looks like it was kept away from the media, too.

Wow, when did this happen? I do remember the conversation but when did we hit it?

Art,

Not sure if you saw this photo ( or any others) but here's the marijuana place in the heart of our district that we mentioned at lunch several weeks ago.
